- HTML
- Scss
- JavaScript
- React.js
- Node.js
- PHP

## LANGUAGES

- English | Elementary

## PROFESSIONAL SUMMARY

I'm a new web developer with passion, determination, and a strong desire for growth. My dedication, persistence in problem-solving, and willingness to face new challenges make me ready to contribute significantly to any team and organization that trusts me. I am eager to learn from more experienced colleagues and collaborate with other professionals to achieve common goals.

## EXPERIENCE

### E-COMMERCE

Developed a dynamic e-commerce platform using React.js for the frontend, Node.js for the backend, and MongoDB for the database. Implemented state management with Zustand, API interactions with Axios, and added engaging animations with Framer Motion to enhance user experience.

### CINESTREAM

Developed a seamless movie streaming platform using React.js for the frontend, Node.js for the backend, and integrated with the TMDb API. Implemented state management with Zustand and API interactions with Axios to ensure efficient data fetching and state handling.

### DATEAPP

Developed a sophisticated dating application similar to Tinder using React.js for the frontend and Node.js for the backend. Utilized Zustand for state management, Axios for API interactions, and Socket.io for real-time communication to ensure a seamless and interactive user experience.

## EDUCATION

**Datalabs.** Thessalonikini | Feb 2024 - Dec 2024

Completed a comprehensive 1-year training program at Datalabs, where I focused on mastering JavaScript, HTML, CSS, and PHP. This intensive program provided me with the skills and knowledge needed to develop robust and user-friendly web applications, further enhancing my proficiency in both frontend and backend technologies.
